

PARISH COUNCIL (Contd)

Rubbish and Litter (Contd.)

In order to keep our village as smart and clean as possible, it would be appreciated if everyone would take a little more care in seeing that litter is not allowed to blow about the open areas in the village.

Alan Gibson, Parish Councillor.

ANNUAL PARISH MEETING

The Annual Parish Meeting will take place in the Village Hall on Monday, 10th April, 1989 at 7.45 p.m.

THANKS to all contributors to this Newsletter. Copy in writing for the next issue (due our early June 1989) to Rene Beale, 10, Waggoners Close, Bubbenhall. (Coventry 301727).

FINALLY I have been asked to extend Thanks through this Newsletter to our Village Hall Committee Secretary, Sue Wareham. She works tirelessly to arrange the various functions which take place in the Hall. The New Year's Eve Ball was a masterpiece of organisation, and proved to be one of the best New Year's Eve festivities we have enjoyed in Bubbenhall for many years. Well done Sue! Many thanks!

No. 8

PARISH COUNCIL

Sand and Gravel Extraction/Disposal of Household Waste.

(1) Present Site at Weston Lane.

The Parish Council has raised no objection to a proposal submitted for the amendment of the restoration levels at the present site at Weston Lane, the combined effect of which would be to extend the life of the present site by about 7 years from the original finishing date of 1999.

(2) Development of the "Glebe Lands"

The "Glebe Lands" including Glebe Farm have been purchased by Smiths Concrete Ltd., the operators of the present site in Weston Lane, and the Parish Council has had an exploratory meeting with the Company with regard to their proposals for this site, which stretches from Weston Lane along the A445, around the rear of the Rectory and Bubbenhall C.E. School to Pagets Lane. Bubbenhall Wood is not included.

It is understood that Smiths Concrete Ltd. propose to submit a planning application in the near future for the extraction of sand and gravel from this site, and, of course, the use of the site for the disposal of waste. This development will extend over a considerable number of years, certainly much longer than the present site in Weston Lane, which, with its extension, is estimated to continue until 2006.

The Parish Council is concerned that all residents should be aware of the implications of the new proposal for the "Glebe Lands" area, both from planning and traffic aspects and has asked Smiths Concrete Ltd. to arrange an "open evening" in the Village Hall, when their proposals are finalised, possibly in March or early April. All necessary plans and etc., will be on view, and it is hoped that the planning authorities will also be present, especially with regard to the anticipated waste disposal operations after the extraction of sand and gravel.

The Parish Council will ensure that every household is informed of the meeting, when arranged.
